1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**The non-elected claims 18-19 have been canceled.**

1. The following is an examiner's statement of reasons for allowance: the amendment filed 11/30/2006 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest the pull down driver further comprising an inverter to generate a third control signal in response to the input voltage signal and the first control signal from the pull up driver, and deterioration compensation part to generate the second control signal in response to the input voltage signal, the first control signal from the pullup driver, and the third control signal from the inverter as called for in claim 1. Therefore, claims 1-13 and 15-17 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
